DETAILED ACTION

1. This action is responsive to the amendments filed July 30, 2008. In the instant amendment, claims 9-12 and 14-20 have been amended.
2. Claims 1-2, 4-6, 9-12, and 15-20 have been examined, and all remained pending claims now are being allowed (renumbered 1-17).

Examiner's Statement of Reasons for Allowance

3. As Applicants pointed out in the Remarks, the prior art of record (Joshi and Kolawa) do not disclose and/or fairly suggest at least claimed limitations in independent claim 1,

"...determining whether to display the associated data on the basis of whether the associated data is restricted data; wherein determining whether to display the associated data comprises referencing predefined access restriction rules defining at least one rule preventing at least a portion of the associated data from being displayed to unauthorized users; and

upon determining not to display the associated data on the basis of the referenced predefined access restriction rules, outputting masking characters on an output screen indicative of the associated data without revealing a value of the associated data, whereby selected data from the data repository is concealed from a user debugging the executable code." (see Remarks filed July 15, and July 30, 2008).

and in such manners in other independent claims 9 and 16.

These claimed limitations are not present in the prior art of record and would not have been obvious, thus all pending claims are allowed.
